Professional Summary

Front-end focused Full Stack Developer with 1.5 years of experience building production-grade web apps using React.js, Next.js, TypeScript, and MongoDB. Experienced in OAuth 2.0 integrations, UI component architecture, and design system migrations. Adept at delivering SEO-optimized, responsive interfaces and secure backend APIs in fast-paced, collaborative environments.

Technical Skills

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS, Shad/CN, PrimeReact

Backend: Next.js API Routes, Python, Django, MongoDB

Programming: JavaScript, TypeScript, C++

Tools: Git, GitHub, Postman

Core Skills: Front-end Development, Team Collaboration

Work Experience

Full Stack Developer

Infomover Technologies, Remote

Sept 2024 – Feb 2026

- Built and maintained a full-stack Next.js application with SEO-optimized, high-performance components.
- Resolved a Safari-specific rendering issue in a progress circle, ensuring consistency across major browsers.
- Led onboarding for new team members, focusing on backend architecture and workflow clarity.
- Implemented OAuth 2.0 for secure integration with external platforms and services.

Projects

Productiviti – Company Project

Next.js, React, Tailwind, shadcn, OAuth, TypeScript

productiviti.io

- Engineered OAuth 2.0 integrations across multiple platforms, handling auth flows, token lifecycle, and cross-platform data sync.
- Built global Context Providers managing app-wide auth state, real-time platform statuses, and dynamic UI updates.
- Developed a reusable, composable UI component library standardizing design patterns and accelerating development velocity.
- Led full UI stack migration from PrimeReact/PrimeFlex to shadcn/ui + Tailwind CSS, modernizing the design system and cutting dependency bloat.

HireTalentt – Company Project

React, Next.js, Tailwind, MongoDB

hiretalentt.com

- Ensured accessibility and SEO optimization via server-side rendering and metadata configuration.
- Implemented OAuth 2.0 for secure integration with external platforms and services.
- Built and maintained a full-stack Next.js application with SEO-optimized, high-performance components.
- Developed REST APIs and integrated MongoDB for real-time CRUD operations.

Job Portal Web App

React, Tailwind

- Developed admin, recruiter, and user flows with responsive UI and dynamic routing.
- Integrated secure login and registration system with role-based authentication.
- Enabled job listing filters, search functionality, and pagination for improved UX.

Education

B.Tech, Computer Science and Engineering

Jai Narain College of Technology, Bhopal

2021 – 2025
